Thermochimica Acta 262 (1995) 235–238

thermochimica acta

Subject index

Acetone
Excess molar enthalpies of acetone + water, cyclohexane, methanol, 1-propanol, 2-propanol, 1-butanol and 1-pentanol at 283.15, 298.15, 323.15, 343.15 and 363.15 K 69

Activation energy
The effect of procedural variables and mechanical activation on the thermal decomposition of calcite. An approach by experimental design 129

Adiabatic
Partial molal adiabatic compressibilities of transfer of some amino acids and peptides from water to aqueous sodium chloride and aqueous glucose solutions 175

Adsorption
Temperature-programmed reaction and *in situ* infrared study of CO adsorbed on Rh/SiO_2 and $Ag–Rh/SiO_2$ catalysts 215

Alcohol
Excess molar enthalpies of acetone + water, cyclohexane, methanol, 1-propanol, 2-propanol, 1-butanol and 1-pentanol at 283.15, 298.15, 323.15, 343.15 and 363.15 K 69

Amino acid
Partial molal adiabatic compressibilities of transfer of some amino acids and peptides from water to aqueous sodium chloride and aqueous glucose solutions 175

Anisaldehyde
Kinetic studies on the thermal dissociation of β-cyclodextrin–anisaldehyde inclusion complex 165

Antioxidant
Evaluation of sodium stearate as a synergist for arylamine antioxidants in synthetic lubricants 157

Aqueous solution
Thermal analysis of aqueous solutions of heparins 109

Binary system
Thermal behaviour and phase diagram for the RDX/NQ binary system 185

Calcite
The effect of procedural variables and mechanical activation on the thermal decomposition of calcite. An approach by experimental design 129

Calorimetry
The $AlF_3–BaF_2–NaF$ molten salt system: calorimetric investigations and modelling 45

Chromium oxide
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101

CO hydrogenation
Temperature-programmed reaction and *in situ* infrared study of CO adsorbed on Rh/SiO_2 and $Ag–Rh/SiO_2$ catalysts 215

Cr_3C_2
Studies on the kinetics of the carbothermic reduction of chromium oxide using the evolved gas analysis technique 145

Cyclic voltametric thermogram
A novel isothermal electrochemical microcalorimeter 55

β-cyclodextrin
Kinetic studies on the thermal dissociation of β-cyclodextrin–anisaldehyde inclusion complex 165

Decomposition
The effect of procedural variables and mechanical activation on the thermal decomposition of calcite. An approach by experimental design 129

Dielectric constant
Electrical study of the phase transition in some hydrogen oxalates 87

Dimethylanilinium nitrates (DMAN)
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117
Direct drop mixing
The AlF_3–BaF_2–NaF molten salt system: calorimetric investigations and modelling 45
DMF
Ionization thermodynamics of methylbenzoic acids in water–DMF mixtures 227
DSC
Evaluation of sodium stearate as a synergist for arylamine antioxidants in synthetic lubricants 157
Thermal behaviour and phase diagram for the RDX/NQ binary system 185
DTA
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101
Dynamic modelling
Polymerization calorimeter. Part 1. Modelling and characterization 13

EGA
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195
Emanation thermal analysis
Differences in the thermal behaviour of natural quartz before and after mechanical grinding as observed by emanation thermal analysis 209
Energetic compounds
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117
Enthalpy of fusion
Determination of the enthalpy of fusion of K_3TiF_7 83
Eutectic
Molten sodium nitrite–sodium nitrate–potassium nitrate eutectic: the reactions and spectra of chromium(III) chloride and chromium(VI) compounds 95
Thermal behaviour and phase diagram for the RDX/NQ binary system 185
Excess enthalpies
Excess molar enthalpies of acetone + water, cyclohexane, methanol, 1-propanol, 2-propanol, 1-butanol and 1-pentanol at 283.15, 298.15, 323.15, 343.15 and 363.15 K 69
Experimental design
The effect of procedural variables and mechanical activation on the thermal decomposition of calcite. An approach by experimental design 129

Friction sensitivity
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117
FTIR
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195

Glucose
Partial molal adiabatic compressibilities of transfer of some amino acids and peptides from water to aqueous sodium chloride and aqueous glucose solutions 175
Graphite
Studies on the kinetics of the carbothermic reduction of chromium oxide using the evolved gas analysis technique 145

Heat balance calorimeter
Polymerization calorimeter. Part 1. Modelling and characterization 13
Polymerization calorimeter. Part 2. Practical use and application in polymerizations 33
Heat of fusion
Thermal behaviour and phase diagram for the RDX/NQ binary system 185
Heat of ionization
Ionization thermodynamics of methylbenzoic acids in water–DMF mixtures 227
Heat unfolding
Thermodynamic parameters for 3-state thermal denaturation of human and bovine α-lactalbumin 1
Heparin
Thermal analysis of aqueous solutions of heparins 109
High-temperature calorimeter
Determination of the enthalpy of fusion of K_3TiF_7 83

Ignition delay
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117
Impact sensitivity
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117

Inclusion complex
Kinetic studies on the thermal dissociation of β-cyclodextrin–anisaldehyde inclusion complex 165
In situ infrared spectroscopy
Temperature-programmed reaction and *in situ* infrared study of CO adsorbed on Rh/SiO_2 and $Ag–Rh/SiO_2$ catalysts 215
IRS
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101
Isothermal electrochemical microcalorimeter
A novel isothermal electrochemical microcalorimeter 55

Kinetics
Kinetic studies on the thermal dissociation of β-cyclodextrin–anisaldehyde inclusion complex 165
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117
Studies on the kinetics of the carbothermic reduction of chromium oxide using the evolved gas analysis technique 145

α-Lactalbumin
Thermodynamic parameters for 3-state thermal denaturation of human and bovine α-lactalbumin 1

Mechanical grinding
Differences in the thermal behaviour of natural quartz before and after mechanical grinding as observed by emanation thermal analysis 209
Melt
Molten sodium nitrite–sodium nitrate–potassium nitrate eutectic: the reactions and spectra of chromium(III) chloride and chromium(VI) compounds 95
Methylbenzoic acid
Ionization thermodynamics of methylbenzoic acids in water–DMF mixtures 227
Milk protein
Thermodynamic parameters for 3-state thermal denaturation of human and bovine α-lactalbumin 1

Oxalate
Electrical study of the phase transition in some hydrogen oxalates 87

Peptide
Partial molal adiabatic compressibilities of transfer of some amino acids and peptides from water to aqueous sodium chloride and aqueous glucose solutions 175
Polymerization
Polymerization calorimeter. Part 2. Practical use and application in polymerizations 33
Polymerization calorimeter
Polymerization calorimeter. Part 1. Modelling and characterization 13
Polymerization calorimeter. Part 2. Practical use and application in polymerizations 33
Polymorphism
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195
Potassium bromate
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101
Potassium heptafluorotitanate
Determination of the enthalpy of fusion of K_3TiF_7 83
Potassium oxalate
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101
Protein stability
Thermodynamic parameters for 3-state thermal denaturation of human and bovine α-lactalbumin 1

Quartz
Differences in the thermal behaviour of natural quartz before and after mechanical grinding as observed by emanation thermal analysis 209

Radon
Differences in the thermal behaviour of natural quartz before and after mechanical grinding as observed by emanation thermal analysis 209
Reaction calorimetry
Polymerization calorimeter. Part 1. Modelling and characterization 13
Polymerization calorimeter. Part 2. Practical use and application in polymerizations 33
Reactivity
Temperature-programmed reaction and *in situ* infrared study of CO adsorbed on Rh/SiO_2 and $Ag–Rh/SiO_2$ catalysts 215
Reduction
Studies on the kinetics of the carbothermic reduction of chromium oxide using the evolved gas analysis technique 145

Resistivity
Electrical study of the phase transition in some hydrogen oxalates 87

Samarium sulphite trihydrate
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195
Sodium chloride
Partial molal adiabatic compressibilities of transfer of some amino acids and peptides from water to aqueous sodium chloride and aqueous glucose solutions 175
Sodium stearate
Evaluation of sodium stearate as a synergist for arylamine antioxidants in synthetic lubricants 157
Synthetic lubricant
Evaluation of sodium stearate as a synergist for arylamine antioxidants in synthetic lubricants 157

TA
Thermal analysis of aqueous solutions of heparins 109
Temperature-programmed reaction
Temperature-programmed reaction and *in situ* infrared study of CO adsorbed on Rh/SiO_2 and $Ag–Rh/SiO_2$ catalysts 215
Ternary system
Molten sodium nitrite–sodium nitrate–potassium nitrate eutectic: the reactions and spectra of chromium(III) chloride and chromium(VI) compounds 95
The $AlF_3–BaF_2–NaF$ molten salt system: calorimetric investigations and modelling 45

TG
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101
TG–DTA
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195
TG–MS
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195
TGA
Electrical study of the phase transition in some hydrogen oxalates 87
Thermal modelling
Polymerization calorimeter. Part 1. Modelling and characterization 13
Thermolysis
Studies on energetic compounds Part 3. Kinetics of thermolysis of dimethylanilinium nitrates 117

Utilization of the calorimeter
Polymerization calorimeter. Part 2. Practical use and application in polymerizations 33

Water
Excess molar enthalpies of acetone + water, cyclohexane, methanol, 1-propanol, 2-propanol, 1-butanol and 1-pentanol at 283.15, 298.15, 323.15, 343.15 and 363.15 K 69

XRD
Solid state reactions in the system oxalate–bromate–chromium(III) oxide 101
Synthesis and thermoanalytical characterization of two polymorphs of samarium sulphite trihydrate 195
